BSidesROC 2018 Sponsor Kit

BSidesROC, an open 501(c)(3)-based information security conference, brings cyber security professionals and students together to share their expertise.

On April 13th and 14st, 2018, hundreds of cyber security professionals, college students, and hackers from around the nation are gathering the Rochester Institute of Technology (RIT) campus to learn the latest developments in cyber security, compete in computer hacking challenges, and network with hiring employers.

Here is a quick summary of what Security B-Sides Rochester (BSidesROC) is:

- The **largest** computer security conference in Rochester (with 400+ attendees in 2017).
- An event filled with **three tracks** of technical presentations by leading information security professionals.
- A chance for attendees to share their knowledge in the latest developments on **mobile security, penetration testing, security operations, cryptography, secure messaging, reverse engineering**, and more!

Unique Sponsoring Opportunities

According to our 2017 exit survey, of our 400+ attendees, half were working professionals in IT/infosec, and half were students. This presents unique opportunities for potential sponsors: not only can they market their services and products directly to decision-makers, but they can also network with job-seekers just entering the workforce!

Our Gold sponsorship level grants your company prime real estate: a table on the main conference floor in front of the Track 1 conference hall.

Training Classes

Whereas the main conference aims to be as inexpensive as possible to encourage high participation from the community, our training classes (held the day before) aim to provide value to working professionals. We are actively seeking corporate trainers to offer either informational classes or official certification on their company's products/services. Classes that range from hundreds to thousands of dollars per seat are not unheard of.

Note that formal sponsorship to the main conference is not necessary to host a training class. If interested, please send e-mail to training@bsidesroc.com.

Swag Bags

Like all conferences, our attendees *love* free stuff! If you have fun promotional trinkets to give away, we would be happy to distribute them for you—*free of charge!* However, informational sheets and advertisements require sponsorship (see next page).

Custom Sponsorship Levels

The last page details our standard sponsorship levels. If your company is interested in custom perks not listed, please let us know. We would be happy to consider providing unique benefits in exchange for your support!
